

2006 Ghana Crusade

Healing Testimonies

Jonas Carbou

“If you move, God moves.”

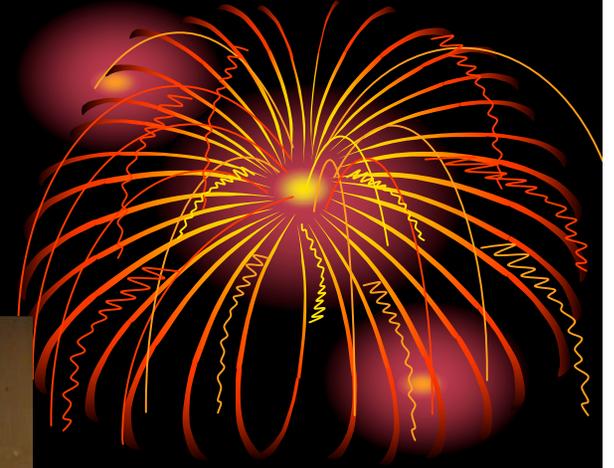

- **For five years I've had pain in my knee, it's been impossible to kneel. I didn't want to go to the doctor, I was afraid of what he would tell me. I was afraid he would prescribe radiation.**
- **I am an usher at my church so I heard about the crusade. I came with my wife, expecting to be healed. When the preacher said to put hands where you need healing, you would feel heat. I prayed and my hand felt hot. God really moved. God put it in my heart to testify.**

Princeworth Quaye

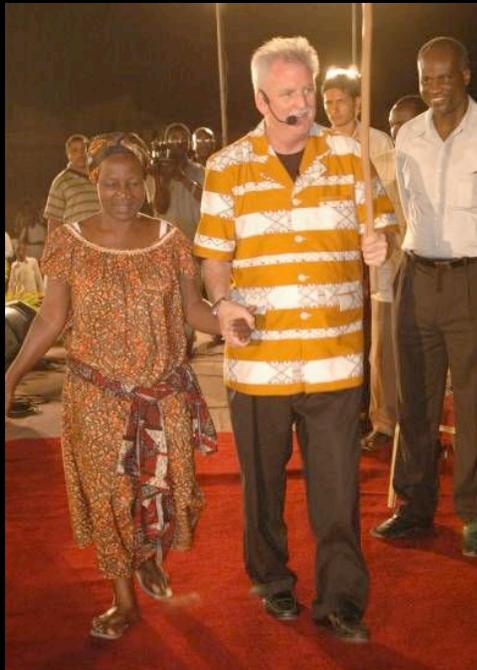

- **I was diagnosed with Cirrhosis 2 years ago. Pain from arthritis made it even worse. I fell into a gutter and the pain increased. When I visited the doctor, he prescribed medicine but I didn't buy medicine. I heard about the crusade on the radio and came with friends from the university.**
- **I wanted to be healed. My healing was gradual, it started during the morning.**
- **I was overjoyed and felt great joy!**
- **This crusade was awesome, just awesome!**

Mary Ameble-Peki

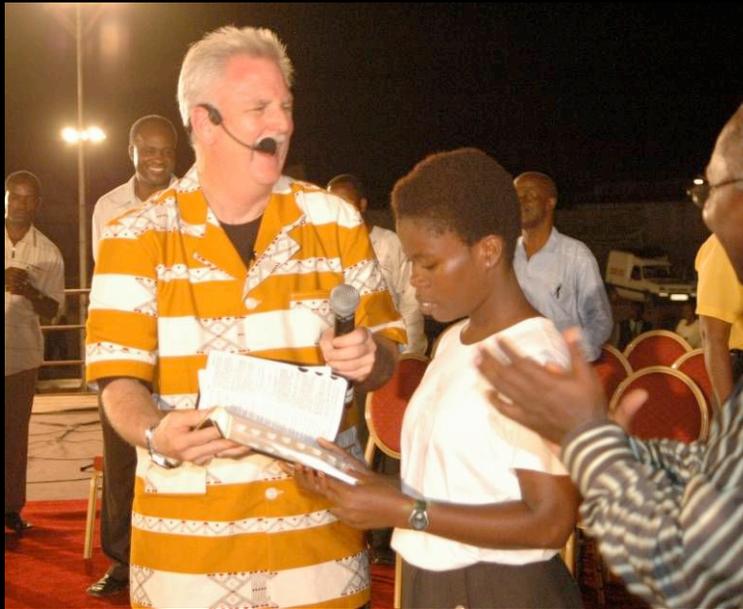

I had severe pains in my legs and feet from a snake bite sixteen years ago. I took several types of medicine but nothing helped.

My son told me about the crusade. I went with him expecting to be healed. During the prayer time, I was asking to be healed. There was a strong movement in my legs. God is working through these crusades.

Ladonna Paulhodj

God is doing a great thing here!

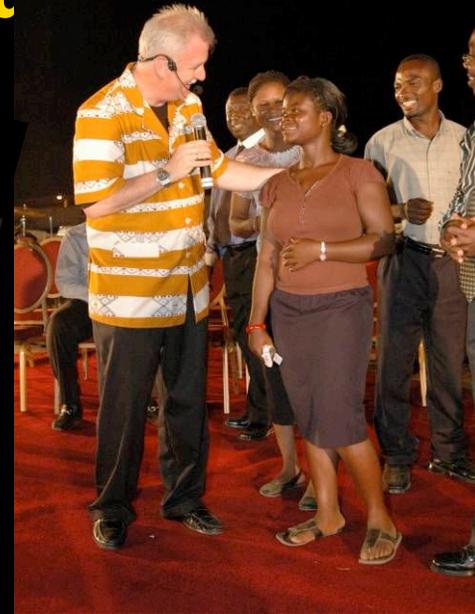

For seventeen years, I have had epilepsy. I would fall down and bite my tongue. I would feel something evil that was disturbing my mind and I couldn't read. My father told me about the crusade and brought me here. I expected to receive my healing. Something in my mind was spoken to me and the Lord said I am healed. I am overjoyed and feel so good! God healed me and I'm so happy now! When I get home, I will be telling them also.

Ama Laustina

Deaf and Dumb from birth

- Medical treatment--send to school for the deaf and dumb
- God's treatment--be healed

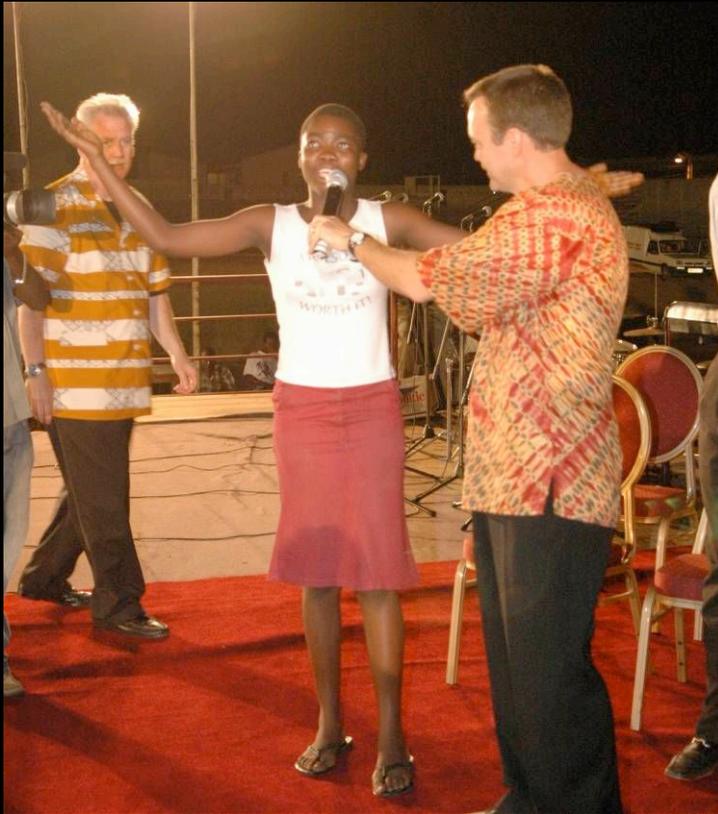

- I started hearing and with my friends' help, I can hear and talk now. I have so much joy in me because God saved and healed me!

Selasi Ocloo

**All the pain is gone!
AND
I was saved during the Crusade.**

I pulled a muscle in my foot. For a year now I've been in constant pain all the way up into my back. It often feels like my back is on fire. I've even been in wheelchairs at times. My doctor couldn't determine the cause, although he prescribed exercises for my back. I decided it was not appropriate for me so I continued to trust God. I wanted to receive a miracle from God. During prayer, I felt something cold while moving my toes, coming up my legs all the way up my back. All the pain is gone!

It is a wonderful thing!

Emmanwella Burse

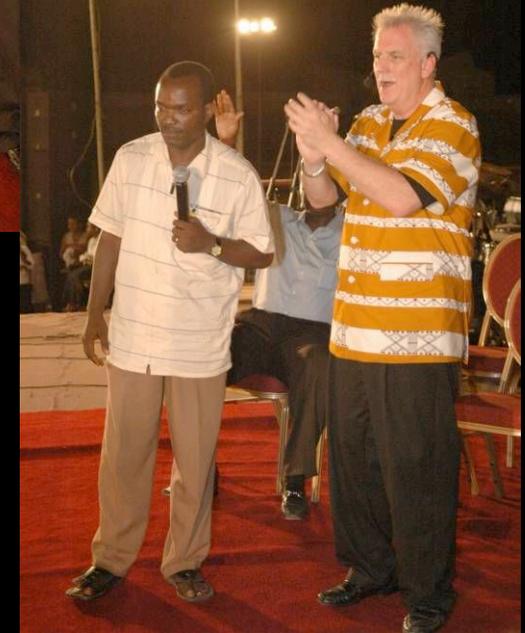

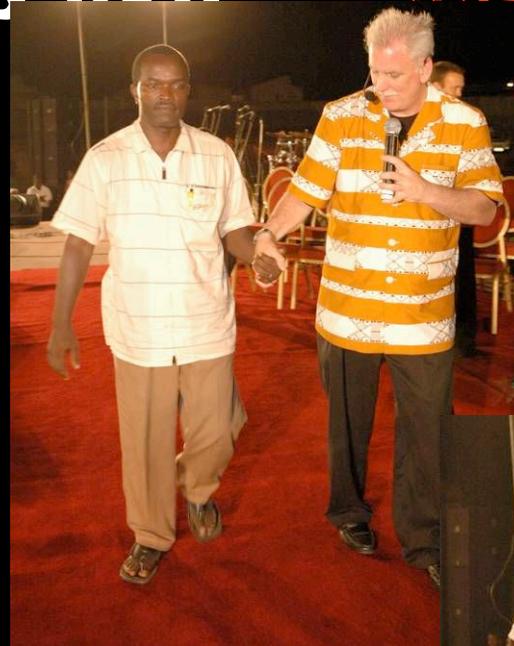

Six months ago, her whole body started to swell, especially her throat. The doctor diagnosed nephritic syndrome with kidney problems. He recommended anti-hypertensive drugs and antibiotics. Nothing changed for her. The doctor told her mother about the crusade. The mother came expecting her daughter to be healed. What a dramatic reduction of swelling in her belly! We expect total restoration!

Graham Halm

I should be dead by now

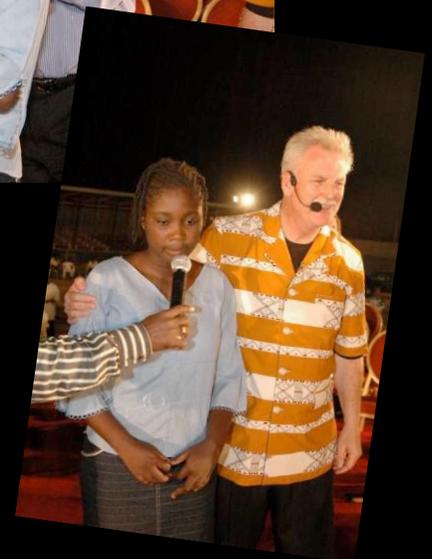

- **Hit by a car 6.5 months ago**
- **Doctor almost cut the foot off**
- **Three surgeries- still couldn't put weight on it**
- **Hobbled**
- **Discharged to rehab with swollen ankle and calf**
- **I asked for help and I felt the pain reduced. The second night I was not having to use crutches.**
- **I am very happy- I had to give a testimony.**

Beatrice Doku

17 years old with her mother

- she has not been able to talk since she had malaria at age 1.
- The doctor gave her an audio test and prescribed hearing drugs.
- No results came about.
- She came expecting to get results!
- She could feel the power of God during the prayer time.
- She was healed.
- God visited her!

Alica Asare

Ten years ago, she had a lump in her right breast and had it surgically removed. Afterward, she still experienced severe pain. The pain has been intense for the last three years. I came with a neighbor to receive healing. During the prayer time, I felt something moving in the side of my breast and all the pain left. God healed me! It was a very powerful time!
